A VARIETY OF TERRAIN

Kissing Bridge has 39 slopes spread out over 700 acres. There's lots of great terrain perfect for the beginner or intermediate skier or rider, plus several challenging slopes for advanced. Serviced by 9 lifts, it is easy to see that at KB you will spend more time on the slopes and less time in the lift line.

SNOW CONDITIONS

Don't be misled if there is no snow in your backyard. Kissing Bridge is well known for its snow quality, depth and grooming. Located in Western New York's famous Colden Snowbelt, with an average annual snowfall of about 180 inches. Couple this with our extensive snowmaking capacity and you will see why KB skiers enjoy more skiable snow.... all winter long!

Next comes the Mini Park, designed for the beginner rider who wants to learn to ride the rails and hit the jumps. The features in this park are scaled down to allow the rider to feel more comfortable while leaning.

When you are ready, "drop in" to the Main Park, which is designed and built for intermediate/experienced skiers and riders. Once you have mastered this park, you will have the confidence and ability to ride them all.
